

TECHNOLOGY HYGIENE

For the highest level of cleanliness and hygiene

Can you afford **not** to have a Technology Hygiene service?

There are around 25,000 germs on an office telephone - in comparison there are just 49 on a toilet seat! * Our service reduces the risk of cross infection.

When performing a Technology Hygiene service our technicians remove dust that builds up in vent areas and grooves of telephones, printers, fax machines and computers using brushes. They then cleanse all grime and dirt from the casing areas, keys and other components and surfaces, finishing with the application of pre soaked sanitised anti-static wipes around and between each individual key.

Why choose the Cannon Hygiene Technology Clean Service:

- ✓ There are thousands more harmful germs on a telephone, keyboard or mouse than on a toilet seat.
- ✓ 60% of all illness is contracted within the workplace.
- ✓ Look after your staff and reduce absenteeism.
- ✓ Our Technology Clean teams operate quietly and efficiently, within normal working hours.
- ✓ Cannon Hygiene has branches nationwide.

To find out more about our Technology Hygiene service, or any other Cannon Hygiene services, please call 0800 494 436 (freephone), email enquiries@cannonhygiene.co.nz or visit www.cannonhygiene.co.nz.
