

Let US worry about the state of your First Aid Kit

Do you want the confidence of knowing that your First Aid Kit will always be up to standard?

With this unit on site, our Cannon Hygiene team will regularly check and restock your First Aid supplies to ensure that you always have a fully-stocked kit. Used supplies are replaced every maintenance cycle, so you will always have hospital grade supplies whenever there is an emergency.

First Aid Kit Contents

Cannon Hygiene's First Aid Kits contain removable dispensers and mini packs that can be taken directly to the patient. They have an area on which to write your emergency telephone numbers and easy-to-read first aid guides, which can be read at a glance.

Included in the First Aid Kit are gloves, alcohol-free wipes, safety pins, a guidance leaflet, eyepads, medium and large dressings, plasters, triangular bandages and saline capsules.

The unit comes in two sizes: a 20 Person Kit and a 50 Person Kit.

Cannon Hygiene's First Aid Kits meet the Department of Labour's requirements for First Aid Kits.

Eye Wash Kit

This detachable, wall-mounted unit provides emergency eye care in the workplace. The unit has a large mirror, wide access slots for easy product removal, and contains two 1 litre saline packs ideal for eye irrigation.
