

# WASHROOM SERVICES

Premier & EcoPure Ranges

**cannon**

hygiene solutions for washroom - technology - linen

Providing a high standard of safety, cleanliness and style in the washroom has never been easier or more cost effective. Cannon Hygiene offers two complete and coordinated ranges of efficient, durable and innovative washroom products - the silver Premier range and the white EcoPure range.

## Extreme standards of hygiene to satisfy the most extreme expectations of the modern washroom

### HAND SANITISER

Ideal for cleaning hands when no water is available. The gel eliminates the risk of cross-contamination, kills 99% of common germs and bacteria, dries quickly and freshens hands. The gel is kept safe inside a hermetic (sealed) pouch.

The unit features one-hand operation.

### FOAM SOAP DISPENSER

Easy to use and hygienic, this unit dispenses a moisturising foam soap which has a skin-neutral PH and is Green Seal certified.

The unit features a one-hand operation and one-way valve to prevent clogs.

### TCell™ FRAGRANCE UNIT

The TCell™ fragrance unit provides a consistent level of pure fragrance and odour neutralisers.

Completely environmentally friendly, the unit does not require a battery and contains no Volatile Organic Compounds (VOCs) or ozone-depleting compounds. The refill is completely recyclable.

### AEROSOL FRAGRANCE UNIT

Eliminate unpleasant and unavoidable odours with this automatic, touch free, technologically advanced aerosol unit. It operates on a 24-hour, 30 day refill cycle and is fully programmable.

### SEAT SANITISER

Reduce the risk of cross-infection posed by toilet seats and give staff and customers peace of mind with the Seat Sanitiser. The gel dries in seconds to provide an effective pathogenic bacteria barrier. The unit features one-hand operation.

### SANITISER WIPES

The Sanitiser Wipe is a convenient tool in maintaining washroom hygiene. Holding 100 wipes per container, these are ideal for reducing the risk of cross-infection from toilet seats and other washroom surfaces. The solution dries in seconds to provide an effective pathogenic bacteria barrier.

### WC/URINAL SANITISER

This touch free toilet and urinal sanitiser actively attacks hard water and mineral deposits and minimises scale and stain build-up. The sanitising formulations stop germs breeding and eliminates odours at the source for an odour-free environment. The unit operates on a 24-hour, 30 day refill cycle and is fully programmable.

Our high quality ranges feature Polygiene® antibacterial technology on the dispenser levers, which kills microbes instantly upon contact and breaks the transmission path of diseases, making these units some of the most hygienic dispensers in the market.
